

What
will
Your Teen
be carrying
back to
school
this fall?

In addition to book bags and gym clothes, thousands of Florida teens will be carrying the weight of an **unplanned pregnancy** or **sexually transmitted disease**.

In fact, Florida ranks third among all states in the number of births to teenagers and one in three sexually active teens is likely to catch an STD.

The only 100% effective form of protection is sexual abstinence which means avoiding all sexual activity.
